

Happy Birthday to:
Leah, Sid & Reagan

Year 1

Home time pick up

From Monday 21st September 2020 **Year 1** are to leave school from the Ibbotson Lane entrance from **3.15pm**. Please wear a mask, line up and keep social distancing while waiting for your child. Please line up from the gate towards Sefton Park.

If your child has a sibling in Reception they will leave with Reception at 3.00pm from the main gate. If they have a sibling in Y2 they can leave from the main Pre Prep gate at 3.30pm with them.

After School Club

Can I ask parents/Carers to collect their child from After School at the following times.

If your child is in After School till 4.30pm Can you please collect between 4.15pm - 4.30pm

If your child is in After School until 5.30pm can you please collect your child between 5.15pm – 5.30pm

Please wait at the Pre-Prep gate and a member of After School staff will come to you

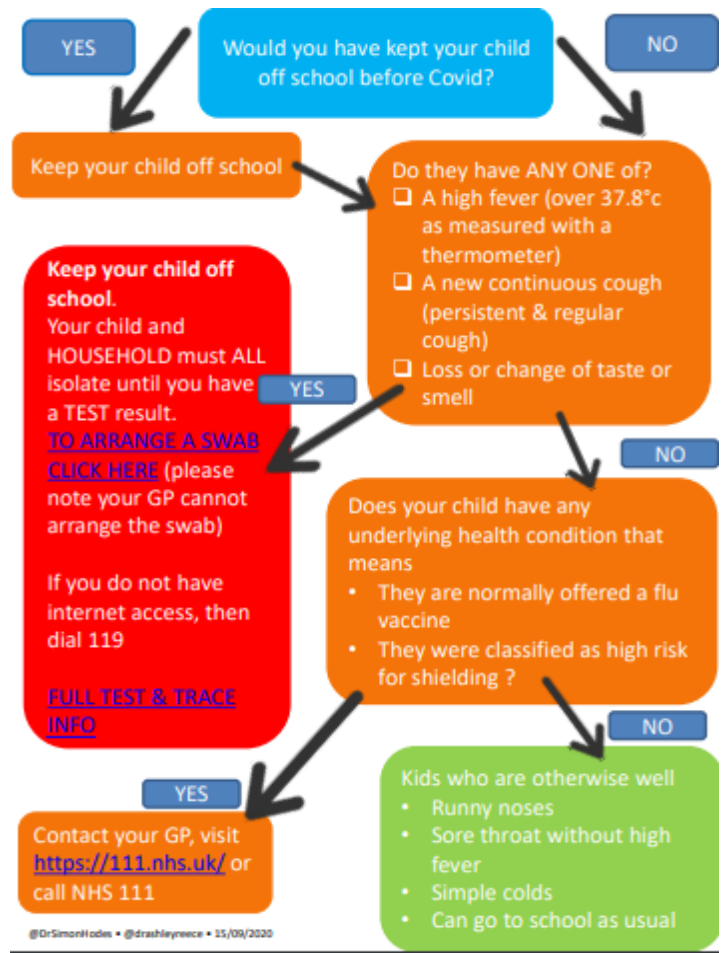

As much as possible children will be outside for After School Club and will be collected from the playground gate.

In inclement weather children will leave from the Sutton Timmis Hall.

School Photograph

Please note that due to Covid restrictions we will **not** be having Individual School Photographs on Monday 21st September 2020

Attendance flow chart to answer some of the questions you may have

Flu Vaccination Key facts

Fluenz does not create an external mist of vaccine virus in the air when children are being vaccinated. Others in the room would not be at risk of 'catching' the vaccine virus. Administration of the intranasal vaccine delivers just 0.1ml of fluid straight into each nostril and almost all the fluid is immediately absorbed into the child's nose. The vaccine virus that is shed is less able to spread from person to person than natural flu infection which spreads easily during the flu season.

Covid-19 is not in the Nasal Flu Vaccine

The vaccine contains 2 strains of A and B Flu virus that are selected based on surveillance of circulating Flu viruses

Porcine gelatine

The Nasal Flu spray contains a highly purified form of gelatine derived from pigs this is used as a stabiliser and protects the live viruses from the effects of temperature. There is no other flu vaccine available that does not contain porcine gelatine.

In order to prevent localised outbreaks in the 2020/21 flu season, an inactivated flu vaccine (Injection) **may be** offered to those children whose parents refuse Fluenz due to the porcine gelatine content, however this will not be until Mid November. The service will keep a record of Parents/carers who have declined due to the above reason and will contact parents/carers directly to arrange an appointment.

Dates for your Diary

23 rd October	Finish school for half term
--------------------------	-----------------------------

Please remember when wearing your mask it must be over your mouth and your nose

If your child is self isolating at home please see below some links to support learning

COVID-19 (coronavirus) absence: A quick guide for parents / carers

What to do if...	Action needed	Back to school...
 <p>...my child has COVID-19 (coronavirus) symptoms*</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Child should get a test • Whole household self-isolates while waiting for test result • Inform school immediately about test results 	<p>...when child's test comes back negative and child is well enough</p>
 <p>...my child tests positive for COVID-19 (coronavirus)</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Child self-isolates for at least 10 days from when symptoms* started (or from day of test if no symptoms) • Inform school immediately about test results • Whole household self-isolates for 14 days from day when symptoms* started (or from day of test if no symptoms) - <i>even if someone tests negative during those 14 days</i> 	<p>...when child feels better, and has been without a fever for at least 48 hours</p> <p>They can return to school after 10 days even if they have a cough or loss of smell / taste. These symptoms can last for several weeks once the infection is gone.</p>
 <p>...somebody in my household has COVID-19 (coronavirus) symptoms*</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Household member with symptoms should get a test • Whole household self-isolates while waiting for test result • Inform school immediately about test results 	<p>...when household member test is negative, and child does not have COVID-19 symptoms*</p>
 <p>...somebody in my household has tested positive for COVID-19 (coronavirus)</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Whole household self-isolates for 14 days from day when symptoms* started (or from day of test if no symptoms) - <i>even if someone tests negative during those 14 days</i> 	<p>...when child has completed 14 days of self-isolation, even if they test negative during the 14 days</p>

* Symptoms include at least one of a high temperature; a new continuous cough; a loss of or change to your sense of smell or taste. See more at:

<https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/>

What to do if...	Action needed	Back to school...
 <p>...NHS Test and Trace has identified my child as a 'close contact' of somebody with symptoms* or confirmed COVID-19 (coronavirus)</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Child self-isolates for 14 days (as advised by NHS Test and Trace) – even if they test negative during those 14 days • Rest of household does not need to self-isolate, unless they are a 'close contact' too 	<p>...when the child has completed 14 days of self-isolation, even if they test negative during those 14 days</p>
 <p>...we / my child has travelled and has to self-isolate as part of a period of quarantine</p>	<ul style="list-style-type: none"> • Do not take unauthorised leave in term time • Consider quarantine requirements and FCO advice when booking travel • Provide information to school as per attendance policy <p>Returning from a destination where quarantine is needed:</p> <ul style="list-style-type: none"> • Child shouldn't attend school • Whole household self-isolates for 14 days – even if they test negative during those 14 days 	<p>...when the quarantine period of 14 days has been completed for the child, even if they test negative during those 14 days</p>
 <p>...we have received advice from a medical / official source that my child must resume shielding</p>	<ul style="list-style-type: none"> • Child shouldn't attend school • Contact school as advised by attendance officer / pastoral team • Child should shield until you are informed that restrictions are lifted and shielding is paused again 	<p>...when school / other agencies inform you that restrictions have been lifted and your child can return to school again</p>
 <p>...I am not sure who should get a test for COVID -19 (coronavirus)</p>	<ul style="list-style-type: none"> • Only people with symptoms* need to get a test • People without symptoms are not advised to get a test, even if they are a 'close contact' of someone who tests positive 	<p>...when conditions above, as matching your situation, are met</p>
