

WELCOME

In this edition you will find information on

- Apprenticeship Support
- Sunday Times Top 100 Apprenticeships
- Classroom To Careers
- Hugh Baird Transition Hub
- Engineering For Females
- Meet The Russell Group Webinar
- What Are The Alternatives To A Degree Or Degree Apprenticeship.
- MyPath Job Of The Week

APPRENTICESHIP SUPPORT

Apprenticeships are fast becoming the first choice pathway at 16+ and there are a large number of websites students can register with to keep up to date with vacancies and gain application support. For Chapter 13, Degree apprenticeships for 2027 for many companies are live now. Chapter 11 students who would like an apprenticeship can start looking at their options after their GCSE's. Below are some of the websites I highly recommend; this list is not exhaustive and students should always research themselves and look at LinkedIn and an employer's careers page on their website. I will continue to share any opportunities I get via this newsletter and directly through the school email. There will be an apprenticeship workshop for Chapter 11 after their GCSE mocks and Chapter 13 students can make an appointment with me for application support through their House Mentor or Dean.

THE SUNDAY TIMES TOP 100 APPRENTICESHIP EMPLOYERS

This list recognises the UK's leading employers, from a wide range of industries & business sectors, that do the most to provide successful apprenticeships. The prestigious annual rankings assess employers according to the number of apprentices they employ, their new apprenticeship starts, the diversity of their new apprentices, and how many apprentices successfully complete their apprenticeships. Click below for the resources.

CLASSROOM TO CAREERS- CHAPTER 10-13

This opportunity is a 3-stage programme for young people aged 14-19 to explore the workplace and career pathways at one of the UK's leading catering, hospitality and support services organisations. Compass Group provides food services across a wide range of industries – from fine dining to events, hospitals, government, education, and more. The programme will explore roles across all business areas, making it an ideal resource to help students learn more about the world of work in a large, long-standing organisation. Click [here](#) for more information and to sign up.

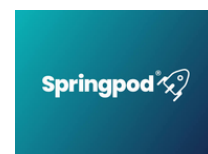

HUGH BAIRD TRANSITION HUB

The Transitions Hub supports young people aged 16-25 across the Liverpool City Region who have an Education, Health and Care Plan (EHCP) and are working at Entry Level 2 and above, helping them prepare for adulthood, further education, or employment. Whether our learners are moving on from a specialist school or seeking a stepping stone to general further education, the Transitions Hub is designed to bridge the gap and provides a safe, nurturing space for learners who need a more personalised approach to learning. Click [here](#) for more information.

OPEN THE DOOR TO ENGINEERING FOR FEMALES IN CHAPTERS 9-13.

Women still make up just under 17% of the UK's engineering and technology workforce. Often it isn't a lack of ability that holds girls back. It's a lack of visibility. If a student has never seen what an engineer, a timetable planner or an operations controller actually does, it's hard for her to picture herself in that role. Virtual work experience is a simple, low-pressure way to change that. Students can explore real roles, hear from real professionals and try real tasks, all at their own pace. Springpod offer over 60 different free virtual work experience in STEM and you can find out more [here](#).

MEET THE RUSSELL GROUP WEBINARS 20TH -29TH OCT

This is incredibly informative for students considering applying for universities such as Cambridge, Bristol, Birmingham, Leeds, Manchester, Durham and Kings. The webinars will cover topics such as Personal Statements & Applying, Researching University Options and Student Life. Students and parents can sign up for each webinar via the registration link [here](#).

WHAT ARE THE ALTERNATIVES TO A FULL-TIME DEGREE OR DEGREE APPRENTICESHIP? THURSDAY 8TH OCT 4-5PM

We know that there is currently huge demand for higher and degree apprenticeships, but that demand is outstripping supply. Higher Technical Qualifications (HTQs) can be a good option for students to consider, providing a bridge into higher education, higher or degree apprenticeships, or a skilled job. In this free webinar we will share everything you need to know about HTQs, plus hear from a range of HTQ students sharing their personal journeys and how HTQs have supported their career plans. Register [here](#).

MYPATH JOB OF THE WEEK

In this section I will be sharing a 'Job Of The Week' from the MYPATH careers website. This week the job is Building Control Surveyor. Click [here](#) for the video.
